Calving ease on both sides here. He started a 60# and grew  
into a heck of a bull. Big bellied and a good boned guy that  
is as tame as a pussycat. Out of a first calf heifer.

Another calving ease bull by dew it right, out of a heifer that  
is one of my favorites. This bull would be great on heifers  
but don't limit him to that. His calves will gain and be  
awesome in the feed yard after they're weaned. A good all-

Out of one the most powerful cows we have, these chophouse calves are born very moderate sized and grow into cattle that just have a cool look to them. Chophouse was the high selling bull at the 2012 Trauernicht Simmental bull sale in Beatrice bought by Steele Angus and Trent Else. Keep all the females from this bull.
